

The Future of Luxury Mobility Has Arrived

Freedom. Speed. Exclusivity.

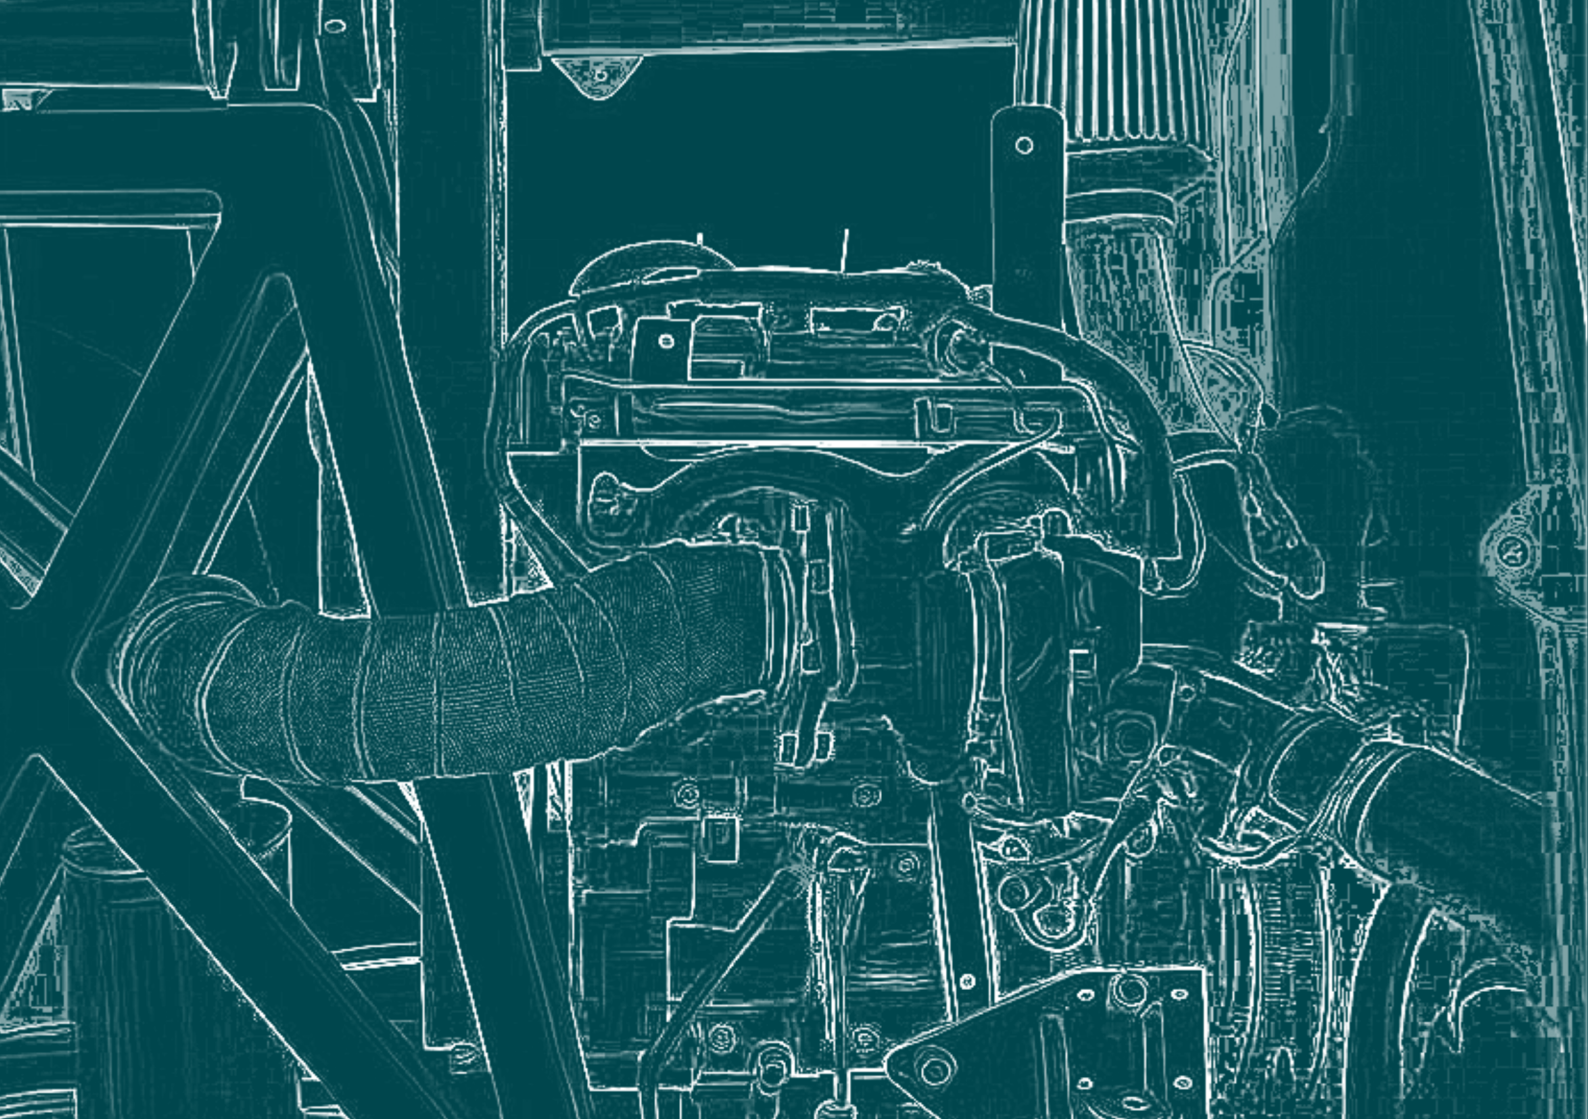

## ***Arrive Where Others Cannot***

***Glide over waves, land directly on a private beach,  
and lift into ground-effect flight at up to 140 km/h.***

***The AERSTORM Hoverwing is not just a craft—  
it is a statement of freedom, performance, and elegance.***

***Designed for those who demand what no one else has.***

## ***German Engineering. Unmatched Performance.***

***290 HP Audi Powertrain: Proven reliability, precision performance.***

***Amphibious Capability: Operates seamlessly on water, sand, ice, and land.***

***Switchable Modes: Hovercraft <-> Wing-in-Ground flight at the touch of a button.***

***Safety Built-In: Controlled landing even in case of component failure.***

## ***Crafted Like a Super-Yacht***

***Each Hoverwing is handcrafted with the same techniques used in Europe's finest yachts.***

***Interior design is bespoke, created in dialogue with the owner.***

***Inspired by Superyacht Tenders, finished with the world's best materials: carbon composites, leather, and polished metals form the best suppliers.***

## ***For the Few, Not the Many***

***Only a limited number of Hoverwings will be produced each year.***

***Every owner enters an exclusive club of pioneers.***

***Each craft is individually numbered and certified.***

***Delivery: From 2025, bespoke configuration available.***
